

# Environmental Impact Statements; Availability, etc.: Non-Contiguous Region of the Nationwide Public Safety Broadband Network

---

## Action

Notice of availability of a final programmatic environmental impact statement.

## Summary

The First Responder Network Authority (“FirstNet”) announces the availability of the Final Programmatic Environmental Impact Statement for the Non-Contiguous Region (“Final PEIS”). The Final PEIS evaluates the potential environmental impacts of the proposed nationwide public safety broadband network in the Non-Contiguous Region (Alaska, Hawaii, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands).

## Addresses

The Final PEIS is available for download from [www.regulations.gov](http://www.regulations.gov) FIRSTNET-FPEIS-2017-0001. A CD of this document is also available for viewing at public libraries (see Chapter 16 of the Final PEIS for the complete distribution list).

## For Further Information Contact

For more information on the Final PEIS, contact Amanda Goebel Pereira, NEPA Coordinator, First Responder Network Authority, National Telecommunications and Information Administration, U.S. Department of Commerce, 12201 Sunrise Valley Drive, M/S 243, Reston, VA 20192.

## Supplementary Information

The Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112-96, Title VI, 126 Stat. 256 (codified at 47 U.S.C. 1401 *et seq.*)) (the “Act”) created and authorized FirstNet to take all actions necessary to ensure the building, deployment, and operation of an interoperable, nationwide public safety broadband network (“NPSBN”) based on a single, national network architecture. The Act meets a longstanding and critical national infrastructure need, to create a single, nationwide network that will, for the first time, allow police officers, fire fighters, emergency medical service professionals, and other public safety entities to effectively communicate with each other across agencies and jurisdictions. The NPSBN is intended to enhance the ability of the public safety community to perform more reliably, effectively, and safely; increase situational awareness during an emergency; and improve the ability of the public safety community to effectively engage in those critical activities.

The National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347) (“NEPA”) requires federal agencies to undertake an assessment of environmental effects of their proposed actions prior to making a final decision and implementing the action. NEPA requirements apply to any federal project, decision, or action that may have a significant impact on the quality of the human environment. NEPA also establishes the Council on Environmental Quality (“CEQ”), which issued regulations implementing the procedural provisions of NEPA (see 40 CFR parts 1500-1508). Among other considerations, CEQ regulations at 40 CFR 1508.28 recommend the use of *tiering* from a “broader environmental impact statement (such as a national program or policy statements) with subsequent narrower statements or environmental analysis (such as regional or basin wide statements or ultimately site-specific statements) incorporating by reference the general discussions and concentrating solely on the issues specific to the statement subsequently prepared.”

Due to the geographic scope of FirstNet (all 50 states, the District of Columbia, and five territories) and the diversity of ecosystems potentially traversed by the project, FirstNet has elected to prepare five regional PEISs. The five PEISs are divided into the East, Central, West, South, and Non-Contiguous Regions. The Non-Contiguous Region consists of Alaska, Hawaii, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. The Final PEIS analyzes potential impacts of the deployment and operation of the NPSBN on the natural and human environment in the Non-Contiguous Region, in accordance with FirstNet’s responsibilities under NEPA.

Now that this PEIS has been completed and once a Record of Decision (ROD) has been signed, the proposed FirstNet projects can begin to submit the site-specific environmental documentation to determine if the proposed project has been adequately evaluated in

the PEIS or whether it instead warrants a Categorical Exclusion, an Environmental Assessment, or an Environmental Impact Statement.

Dated: June 27, 2017.

Amanda Goebel Pereira,

NEPA Coordinator, First Responder Network Authority.
